MANUFACTURE OF BOGIE WHEELS FOR STALIN TANKS AT LEW HENNIGSDORF PLANT
(14 March 1952)

25X1

[REDACTED]

This document consists of a typed memorandum together with a photostatic copy of a sketch with comment concerning the production of bogie wheels ostensibly intended for Stalin tanks.

As of 1 March 1952 , approximately 80 of these bogie wheels (as shown in the sketch, with dimensions given in millimeters) were ready for shipment from the LEW plant at Hennigsdorf, GDR. It was assumed that this shipment represented a single order.
